Dear Brethren,

I hope everyone had a Happy New Year and great Christmas. It's good to be back to lodge in 2018.

We have an exciting month of activities starting with our Stated Meeting on January 10th. We have a newly elected officer line and WB Wayner Arner will lead their Installation at 7:00. It is such an honor to have WB Arner perform this ceremony.

On our off-Wednesday nights, the 17th and 31st, we will meet for proficiency work with our advancing Brothers. I also encourage all Garfield Members to come those nights to enhance their knowledge by learning our Rituals, Degree-work, and accompanying Lectures. It is important for us all to pitch in and continue the Garfield tradition of quality ritual work.

On Wednesday the 24th the Job's Daughters will be visiting, and on the weekend of the 26th and 27th we are attending the Annual Grand Lodge Sessions in Colorado Springs. This is always a good opportunity for networking and fellowship with Masons from other Lodges around the State.

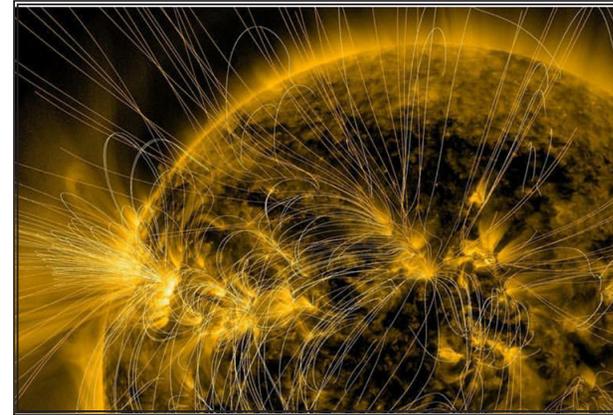

I hope you can all join me for these upcoming events.

Fraternally,

Kirk Holwell WM, Garfield Lodge No. 50

Education, Brotherhood, Teamwork

What light is, we no more know than the ancients did.

According to the modern hypothesis, it is not composed of luminous particles shot out from the sun with immense velocity; but the sun impresses on the ether, which fills all space, a powerful vibratory movement that extends, in the form of luminous waves, beyond the most distant planets, supplying them with light and heat. To the ancients, it was an outflowing from the Deity. To us, as to them, it is the apt symbol of truth and knowledge.

To us, also, the upward journey of the soul through the Spheres is symbolical; *but we are as little informed as the ancients whence the soul comes, where it has its origin, and whither it goes after death.* They endeavored to have some belief and faith, some creed, upon those points. At the present day, men are satisfied to think nothing in regard to all that, and only to believe that the soul is a something separate from the body and outliving it, but whether existing before it, neither to inquire nor care.

No one asks whether it emanates from the Deity, or is created out of nothing, or is generated like the body, and the issue of the souls of the father and the mother. Let us not smile, therefore, at the ideas of the ancients, until we have a better belief; but accept their symbols as meaning that the soul is of a Divine nature, originating in a sphere nearer the Deity, and returning to that when freed from the enthrallment of the body.
